### **Santa Lucia Cocktail Table**

The Santa Lucia Cocktail table is a superior choice for a transitional statement in most any room. The Santa Lucia is custom furniture that proportionately fits in almost room configuration and looks fantastic in a multitude of surface applications and hand applied patinas.

## Great Results Require Great Relationships

Our goal is to develop the perfect solution for your project. We know that takes collaboration and good communication. To this end, we work hard to build personal relationships with every customer to ensure speed of delivery and 100% client satisfaction.

We are excited to talk with you and start building furniture solutions that meet your specific needs.

## Custom in two weeks...

Any of our designs can be customized to your specific needs and tastes and will always incorporate the timeless and skillful design capabilities of our team. Michael Sean offers a variety of highly customizable options unparalleled in the furniture industry today. Our mission is to provide you with choice: design, size, material, finish and delivery method. We can provide such flexibility because each piece is individually handcrafted on a made to order basis. We guarantee superior speed of fabrication because we know your clients demand it.

### SELECT OR CREATE

Simply select a product from one of our collections and order "as is". Or select a product from one of our collections and use our customization services below to create a piece that fulfills your exact needs. Or create a design of your own and use our services to help you fabricate a high-quality product with our expert advice.

### CUSTOMIZE & FINISHES

Customize any design to meet your specific needs and tastes with our trained staff who will help you in the selection process and work with you throughout the entire project. Choose the dimensions of your furniture piece as they fit in your space and allow us to help you ensure the details and structural design are appropriate for your needs.

### ADDITIONAL SERVICES & DESIGN PROCESS

We offer 3-dimensional computer rendering developed to scale per client needs for an additional fee. This allows you to see your newly customized product in a virtual form before purchasing.

## THE FINE ART OF FINE FURNITURE

MICHAEL SEAN

*"For me, inspiration can be found in the simplest places. Nature is one place I draw from regularly. Shape, form, and attention to detail have always consumed my life. From oil painting to marble sculpture and now fine furniture. Conceptually, furniture is about evoking feeling and emotion in the space we live and work daily. What better way to spend our lives than surrounded by art and objects of beauty. I hope you will fall in love with the pieces we create."*
